## PROJECT(S), TRAINING & EXP

### MICROSOFT DVLUP | APP DEVELOPMENT | WINDOWS | C# | TRAINING

- Built Several Detailed Apps (in C#) for Microsoft Dvlup Team & won a Microsoft Lumia Phone, A Wildcraft bag and Microsoft Azure certificate during (15 days Industrial Training by Microsoft Dvlup Team) period.

- Everything was done from the Scratch (solo) related to Development (i.e UX/UI Design, coding, Debug and Testing) in vs code.

### WEBSITE DEVELOPMENT | WORDPRESS | CSS | node JS | Github | Vercel

- Developed official websites for government schools by mixing custom CSS with easy-to-use drag-and-drop features. I used Photoshop to make sure all the images looked crisp and professional, and I made sure everything was fully responsive so the sites work perfectly on phones. It was all about making the schools look great online with a clean, mobile-friendly setup. - Built a minimal resume site by integrating Node.js and GitHub with a Vercel deployment pipeline. Utilized Gen AI to assist in coding and architecture, ensuring a clean and efficient user experience. Link: ([tarun-kumar-resume.vercel.app](https://tarun-kumar-resume.vercel.app)).

### PC BUILDING PROJECT | GAMING PC | HARDWARE

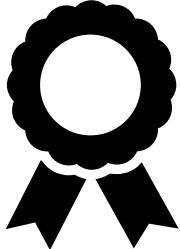

- Built a custom gaming rig from scratch for a client, handling everything from picking the best parts on Amazon to staying right on budget. I made sure the build was super clean with pro-level cable management so it looks as good as it performs. Delivered a fully tested, ready-to-game setup that the customer could just plug in and start playing.

## **MANAGED ACCOUNTS | BANKING | FINANCE**

- I took care of the business banking for a music production company owned by my Aunt, starting with setting up their corporate PNB account from scratch. I was responsible for all the day-to-day stuff like adding beneficiaries, handling transactions, and pulling official statements. I also made sure the whole account was locked down and secure, keeping the company's finances organized and safe.

## **INTERIOR DESIGN | SOFA | DINING TABLE**

- I took charge of a home interior project where I custom-designed a 9-seater sofa, carefully selecting the perfect style and fabric to match my space. I managed the entire build process, directing the furniture makers step-by-step to ensure the quality and finish were exactly what I envisioned. It was a hands-on project that turned a creative vision into a high-quality, professional-looking reality for my home.

- I handled a custom interior project for my home, focusing on a unique 8-seater dining table design. I personally sourced and imported a UV marble sheet from another city to get the exact look I wanted and directed the furniture maker daily to ensure every detail was perfect. After 20 days of hands-on management, the result was a high-end, custom piece that fits the room perfectly.
