PROJECT(S) & TRAINING

MICROSOFT DVLUP | APP DEVELOPMENT | WINDOWS | C# | TRAINING
• Built Several Detailed Apps (in C#) for Microsoft Dvlup Team & won a Microsoft Lumia Phone, A Wildcraft bag and Microsoft Azure certificate during (15 days Industrial Training by Microsoft Dvlup Team) period.

• Everything was done from the Scratch (solo) related to Development (i.e UX/UI Design, coding, Debug and Testing) in vs code.

WEBSITE DEVELOPMENT | WORDPRESS | CSS | node JS | Github | Vercel
• Developed official websites for government schools by mixing custom CSS with easy-to-use drag-and-drop features. I used Photoshop to make sure all the images looked crisp and professional, and I made sure everything was fully responsive so the sites work perfectly on phones. It was all about making the schools look great online with a clean, mobile-friendly setup. Link (www.augicbhatkhola.com) & (www.gicamsyari.com).

• Built a minimal resume site by integrating Node.js and GitHub with a Vercel deployment pipeline. Utilized Gen AI to assist in coding and architecture, ensuring a clean and efficient user experience. Link: (tarun-kumar-resume.vercel.app).

PC BUILDING PROJECT | GAMING PC | HARDWARE
• Built a custom gaming rig from scratch for a client, handling everything from picking the best parts on Amazon to staying right on budget. I made sure the build was super clean with pro-level cable management so it looks as good as it performs. Delivered a fully tested, ready-to-game setup that the customer could just plug in and start playing.
